Coach Core's Vision

Every young person can access meaningful education and employment opportunities, free from barriers and discrimination.

The Reality

1 in 8 young people in the UK are out of work, education, or training. But together, we can change this.

Coach Core's Impact

- 1,000+ young people have gained life-changing skills, qualifications, and employment opportunities.
- 14.5 million people across the UK have been inspired and engaged through sports coaching sessions delivered by our apprentices.
- Our programme has a 70% completion rate (21% above the national average) – and 82% of apprentices have progressed into employment or further education, transforming their futures.

The difference The Leasing Foundation will make

Through our partnership, you'll help more marginalised young people rewrite their life stories and overcome employability hurdles. You'll help them gain practical coaching skills, a dedicated mentor, paid work and vital qualifications so they can thrive.

Your support will transform the lives of young people like Chauncey

Once a talented rugby player in a Premiership academy, Chauncey's confidence crumbled after being dropped, leading him down a path that resulted in prison. With the support of Coach Core and his employer Re N-Gage, he seized a second chance through an apprenticeship.

Determined to turn his life around, Chauncey now draws on his personal experiences to coach and mentor at-risk young people through rugby, football, and boxing. His authenticity and age earn him the respect of those he works with, making him a powerful role model.

“I strive to be a positive role model and inspire participants to make better choices and embrace their potential”, Chauncey.

His employer adds “Chauncey has shown patience, understanding, and most of all, he inspires young people to achieve more than they aspire to, guiding them onto a positive future path.”
